Job description

The person we are seeking will:

- work as part of team to prepare, set up and tidy away experiments, equipment and materials required for demonstrations and class practical work;
- help to improve standards of learning for all students by working with teachers and other support staff in laboratories/classrooms to support learning, particularly (but not exclusively) over practical work;
- demonstrate the use of specific laboratory or other specialist science equipment, etc. to whole classes or small groups of students, in liaison with the Head of Department or classroom teacher;
- undertake routine maintenance and safety checks on equipment and materials to ensure that specialist pieces of science equipment are in good working order. An ability to fault-find and repair electrical and other equipment would be an advantage but is not essential;
- ensure that laboratories, and prep rooms are maintained to a safe and appropriately stocked standard.
